II. Background

The workshop is an opportunity for stakeholders and agencies to continue their dialogue on the technical aspects of implementing the NAS recommendations, building upon public meetings held in November and December 2013, April 2014, and the implementation of the enhanced stakeholder engagement process that was finalized in March 2013. The workshop is not designed, or intended to be a decisionmaking forum; consensus will not be sought, or developed at the meeting.

Stakeholders will be asked to provide scientific and technical information that could potentially be used by the agencies to inform various scientific determinations that will be made during the course of evaluation pesticides, including:

1. Systematic methods for implementing “Weight of Evidence” analysis that consider both quantitative and qualitative data.
2. Approaches for ensuring “Data Quality.”
3. The consideration of “uncertainty” in the scientific assessment process.

While the focus of this public meeting is on the three topics noted in this unit, comments on all aspects of the materials previously provided to the public will be accepted. The agencies’ interim approach document entitled, “Interagency Approach for Implementation of the National Academy of Sciences Report” dated November 13, 2013, and the presentation materials from the November 2013 stakeholder workshop are available at the following website:

<http://www.epa.gov/oppfead1/endorsement/2013/nas.html>.

In addition to the scientific and technical information presented by stakeholders, representatives from Federal agencies will join the dialogue to ask clarifying questions of the presenters and to respond to questions regarding the pesticide registration process and

Endangered Species Act consultation. The agencies see this forum as an integral component of the stakeholder engagement process developed for pesticide consultations and contributes to the agencies' commitment to adapt and refine the interim approaches as we progress through the initial consultations.
